#### Potential Health Effects

**Principle routes of exposure:** Inhalation, ingestion, skin and eye contact.

**Eye contact:** May cause severe eye irritation.

**Skin contact:** Extremely irritating to the skin. Prolonged skin contact may defat the skin and produce dermatitis.

**Inhalation:** May be harmful by inhalation. Vapors extremely irritating to eyes and respiratory tract.

**Ingestion:** May be harmful if swallowed.

**Chronic toxicity:** Excessive inhalation of fumes or dust may cause chemical pneumonitis, cyanosis, and pulmonary edema. Chronic exposure to ethanol can cause developmental damage. Long-term exposure can also cause loss of appetite, weight loss, nervousness, memory loss, mental retardation and liver damage. Combined exposure to ethanol and certain other chemicals may result in increased toxic effects.

### 4. FIRST AID MEASURES

<b>Eye contact:</b>	Rinse immediately with plenty of water, also under the eyelids. Get medical attention if irritation develops.
<b>Skin contact:</b>	Wash off immediately with soap and plenty of water. Remove and wash contaminated clothing before re-use. If symptoms persist, call a physician.
<b>Inhalation:</b>	Move to fresh air. If breathing is difficult, give oxygen. If symptoms persist, call a physician.
<b>Ingestion:</b>	Drink plenty of water. Do not induce vomiting. Consult a physician if necessary.
<b>Notes to physician:</b>	Treat symptomatically.

### 5. FIRE-FIGHTING MEASURES

**Flash point (°C):** 13( 55°F) Method: PMCC

<b>Suitable extinguishing media:</b>	Use dry chemical, CO2, water spray or foam.
<b>Hazardous decomposition products under fire conditions:</b>	Carbon oxides. Molybdenum compounds.
<b>Special protective equipment for firefighters:</b>	As in any fire, wear self-contained breathing apparatus (pressure-demand, NIOSH approved or equivalent) and full protective gear
<b>Unusual hazards:</b>	Flammable solid. Vapors may form explosive mixture with air. Vapors are heavier than air and may spread along floors. Vapor may travel considerable distance to source of ignition and flash back.

### 6. ACCIDENTAL RELEASE MEASURES

<b>Personal precautions:</b>	Flammable liquid. Remove all sources of ignition. Remove all non-essential people from the affected area. Ensure adequate ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. Avoid contact with skin, eyes and clothing. Wear personal protective equipment.
<b>Environmental precautions:</b>	Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do not flush into surface water or sanitary sewer system. Do not allow material to contaminate ground water system.
<b>Methods for cleaning up:</b>	Wear personal protective equipment. Absorb spill with inert material (e.g. dry sand or earth), then place in a chemical waste container. Clean contaminated surface thoroughly. Dispose of promptly.

### 7. HANDLING AND STORAGE

## 7. HANDLING AND STORAGE

### Handling:

Keep away from open flames, hot surfaces and sources of ignition. Handle in accordance with good industrial hygiene and safety practice. Use only in area provided with appropriate exhaust ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. Avoid contact with skin, eyes and clothing. Wear personal protective equipment. Do not eat, drink, or smoke in areas of use or storage. Do not take internally. Wash thoroughly after handling.

### Storage:

Keep containers dry and tightly closed to avoid moisture absorption and contamination. Keep product and empty container away from heat and sources of ignition.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Exposure limits

Minimize exposure in accordance with good hygiene practice.

Components	OSHA PEL	ACGIH
Ethanol	1000 ppm TWA 1900 mg/m <sup>3</sup> TWA	1000 ppm STEL
Silicate mineral	20 mppcf TWA	3 mg/m <sup>3</sup> TWA respirable fraction
Methanol	200 ppm TWA 260 mg/m <sup>3</sup> TWA	Skin 250 ppm STEL 200 ppm TWA
Methyl isobutyl ketone	100 ppm TWA 410 mg/m <sup>3</sup> TWA	75 ppm STEL 20 ppm TWA

### Engineering measures:

Provide appropriate exhaust ventilation wherever dust, mist, vapors, or fumes can be generated. Ensure that eyewash stations and safety showers are proximal to the work-station location.

### Eye protection:

Safety glasses with side-shields.

### Skin and body protection:

Lightweight protective clothing. Keep working clothes separately. Remove and wash contaminated clothing before re-use.

### Hand protection:

Impervious gloves. Follow the recommendations given by the manufacturer of protective gloves.

### Respiratory protection:

In case of insufficient ventilation, wear suitable respiratory equipment. NIOSH-approved respirators should be worn where engineering controls and work practices do not reduce exposure to or below the PEL. Seek professional advice prior to respirator selection and use.

### Hygiene measures:

Wash hands before breaks and at the end of workday
