

SAFETY DATA SHEET

Page: 1(4)
SDS Number: 7999-F
Date Revised: 04/02/2012

This Safety Data Sheet complies with Regulation (EC) No. 1907/2006, ISO 11014-1 and ANSI Z400.1

1. PRODUCT AND COMPANY IDENTIFICATION

Product Name: TORCH COOLANT 25 ESAB P/N 0558004297 (1 Gallon Container)
Application: Arc Welding
Classification: None
Supplier: THE ESAB GROUP, INC., 801 Wilson Avenue, Hanover, PA 17331
Telephone No.: 1-717-637-8911, 1-800-933-7070
Emergency No.: 1-717-637-8911 and 1-800-424-9300 (CHEMTREC)
Web site: www.esabna.com

2. HAZARDS IDENTIFICATION

Emergency Overview: A colorless liquid. This product is normally not considered hazardous as shipped. It can be irritating if in aerosol form.

Not normally hazardous by skin contact. Inhalation of aerosolized mists may cause discomfort and possible irritation to the eyes and upper respiratory tract (nose and throat). This product has low oral toxicity. No effects anticipated from swallowing small amounts.

Persons with a pacemaker should not go near welding or cutting operations until they have consulted their doctor and obtained information from the manufacturer of the device.

When this product is used in a welding process, the most important hazards are heat, radiation, electric shock and welding fumes.

Heat: Spatter and melting metal can cause burn injuries and start fires.

Radiation: Arc rays can severely damage eyes or skin.

Electricity: Electric shock can kill.

Fumes: Overexposure to welding fumes may result in symptoms like metal fume fever, dizziness, nausea, dryness or irritation of the nose, throat or eyes. Chronic overexposure to welding fumes may affect pulmonary function. Prolonged inhalation of nickel and chromium compounds above safe exposure limits can cause cancer. Overexposure to manganese and manganese compounds above safe exposure limits can cause irreversible damage to the central nervous system, including the brain, symptoms of which may include slurred speech, lethargy, tremor, muscular weakness, psychological disturbances and spastic gait.

3. COMPOSITION/INFORMATION ON INGREDIENTS

This product is a liquid.

Ingredients	Weight %	REACH Reg. #	CAS#	EINECS#	Hazard classification ⁽¹⁾	IARC ⁽²⁾	NTP ⁽³⁾	OSHA List ⁽⁴⁾
Propylene Glycol	20-35	--	57-55-6	200-338-0	No	--	--	--
Deionized Water	65-80	--	7732-18-5	231-791-2	No	--	--	--

⁽¹⁾ Hazard Classification according to European Council Directive 67/548/EEC, for R-phrases, see Section 16.

⁽²⁾ Evaluation according to the International Agency for Research on Cancer.

1 –Carcinogenic to humans. 2A – Probably carcinogenic to humans. 2B – Possibly carcinogenic to humans.

⁽³⁾ Classification according to the 11th Report on Carcinogens, published by the US National Toxicology Program.
K – Known Carcinogen S – Suspect Carcinogen

⁽⁴⁾ Carcinogen listing according to OSHA, Occupational Safety & Health Administration (USA).

4. FIRST AID MEASURES

Inhalation: Remove to fresh air. If discomfort persists, call physician.

Eye contact: Rinse eyes in running water for up to fifteen minutes. If irritation persists, obtain medical assistance.

Skin contact: Wash with mild soap and water.

Ingestion: Call a physician or poison control center. Do not induce vomiting unless directed to do so by a physician.

Electric shock: Disconnect and turn off the power. Use a nonconductive material to pull victim away from contact with live parts or wires. If not breathing, begin artificial respiration, preferably mouth-to-mouth. If no detectable pulse, begin Cardio Pulmonary Resuscitation (CPR). Immediately call a physician.

Product Identity: TORCH COOLANT 25
ESAB P/N 0558004297
(1 Gallon Container)

Page: 2(4)
SDS Number: 7999-F
Date Revised: 04/02/2012

5. FIRE FIGHTING MEASURES

Use CO₂, water spray, dry chemical or alcohol type foam. Product itself is not flammable. Wear self-contained breathing apparatus as fumes or vapors may be harmful.

6. ACCIDENTAL RELEASE MEASURES

Mop up and place into container for disposal.

Personal precautions: refer to Section 8

Environmental precautions: refer to Section 13

7. HANDLING AND STORAGE

Handling:

Avoid contact with eyes. Do not swallow or breathe product mists.

Storage:

Keep containers closed and do not expose to direct sunlight.

8. EXPOSURE CONTROL/PERSONAL PROTECTION

Avoid exposure to welding fumes, radiation, spatter, electric shock, heated materials and dust.

Engineering measures: (Welding operations)

Ensure sufficient ventilation, local exhaust, or both, to keep welding fumes and gases from breathing zone and general area. Keep working place and protective clothing clean and dry. Train welders to avoid contact with live electrical parts and insulate conductive parts. Check condition of protective clothing and equipment on a regular basis.

Personal protective equipment: (Welding operations)

Use respirator or air supplied respirator when welding or brazing in a confined space, or where local exhaust or ventilation is not sufficient to keep exposure values within safe limits. Use special care when welding painted or coated steels since hazardous substances from the coating may be emitted. Wear hand, head, eyes, ear and body protection like welders gloves, helmet or face shield with filter lens, safety boots, apron, arm and shoulder protection. Keep protective clothing clean and dry.

Use industrial hygiene monitoring equipment to ensure that exposure does not exceed applicable national exposure limits. The following limits can be used as guidance. When used with welding products, refer to the welding product SDS for information on welding fumes.

Substance	CAS#	ACGIH TLV ⁽¹⁾ mg/m ³	OSHA PEL ⁽²⁾ mg/m ³
Propylene Glycol	57-55-6	None but AIHA WEE ⁽³⁾ L is 10	None
Water	7732-18-5	None	None

⁽¹⁾ Threshold Limit Values according to American Conference of Governmental Hygienists, 2011

⁽²⁾ Permissible Exposure Limits according to the Occupational Safety & Health Administration (USA)

⁽³⁾ Workplace Environmental Exposure Level established by American Industrial Hygiene Association

Unless noted, all values are for 8 hour time weighted averages (TWA).

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Colorless liquid with little or no odor.

Specific Gravity: 1.0 to 1.04

Boiling Point: >100°C/>212°F

Freezing Point: -10°C/13°F

Vapor Pressure: Not determined.

Vapor Density: >1

Evaporation Rate: <1 (vs ether)

Solubility in Water: Complete.

Flash Point: None anticipated (water solutions).

Upper/Lower Flame Limit: Not determined.

Auto-ignition Temperature: Not determined.

Product Identity: TORCH COOLANT 25
ESAB P/N 0558004297
(1 Gallon Container)

Page: 3(4)
SDS Number: 7999-F
Date Revised: 04/02/2012

10. STABILITY AND REACTIVITY

General: This product is intended for normal welding purposes.

Stability: This product is stable under normal conditions.

Reactivity: Contact with chemical substances like strong oxidizers, strong acids or strong bases could cause generation of gas.

Hazardous decomposition products include carbon monoxide and carbon dioxide.

11. TOXICOLOGICAL INFORMATION

Acute toxicity: Propylene glycol aerosols may produce discomfort to the upper respiratory tract and to the eyes.
LD50 (oral, rat) = 20000 -34000 mg/kg.

Chronic toxicity: No carcinogenic, genotoxic or reproductive effects found (Propylene glycol).

12. ECOLOGICAL INFORMATION

Propylene Glycol: Fish: Rainbow trout: LC50 = 44000 - 56000 mg/L; 96 Hr.; Unspecified

Water Flea (Daphnia magna): EC50 = 4850 - 34000 mg/L; 48 Hr.; immobilization

Green Alga (Selenastrum capricornutum): Biomass inhibition: 19000 mg/l

13. DISPOSAL CONSIDERATIONS

Discard any product, residue, disposable container or liner in an environmentally acceptable manner, in full compliance with federal and local regulations. Use recycling procedures if available.

USA RCRA: This product is not considered hazardous waste if discarded. Do not discard into sewers or natural waterways.

Residues from welding consumables and processes could degrade and accumulate in soils and groundwater.

14. TRANSPORT INFORMATION

No international regulations or restrictions are applicable.

15. REGULATORY INFORMATION

Read and understand the manufacturer's instructions, your employer's safety practices and the health and safety instructions on the label. Observe any federal and local regulations. Take precautions when welding and protect yourself and others.

WARNING: Welding fumes and gases are hazardous to your health and may damage lungs and other organs. Use adequate ventilation.

ELECTRIC SHOCK can kill.

ARC RAYS and **SPARKS** can injure eyes and burn skin.

Wear correct hand, head, eye and body protection.

Canada: WHMIS classification: Not a 'controlled product'.

Canadian Environmental Protection Act (CEPA): All constituents of this product are on the Domestic Substance List (DSL).

USA: Under the OSHA Hazard Communication Standard, this product is not considered hazardous.

This product does not contain a chemical known to the state of California to cause cancer and birth defects (or other reproductive harm). (California Health & Safety Code § 25249.5 et seq.)

United States EPA Toxic Substance Control Act: All constituents of this product are on the TSCA inventory list or are excluded from listing.

CERCLA/SARA Title III

Reportable Quantities (RQs) and/or Threshold Planning Quantities (TPQs):

Ingredient name	RQ (lb)	TPQ (lb)
Propylene Glycol	None	None

Spills or releases resulting in the loss of any ingredient at or above its RQ require immediate notification to the National Response Center and to your Local Emergency Planning Committee.

Section 311 Hazard Class

As shipped: None

In use: None

Product Identity: TORCH COOLANT 25
ESAB P/N 0558004297
(1 Gallon Container)

Page: 4(4)
SDS Number: 7999-F
Date Revised: 04/02/2012

EPCRA/SARA Title III 313 Toxic Chemicals

The following components are listed as SARA 313 "Toxic Chemicals" and potential subject to annual SARA 313 reporting. See Section 3 for weight percent.

Ingredient name	Disclosure threshold
No ingredients listed in this section.	--

16. OTHER INFORMATION

This Safety Data Sheet has been revised due to modifications to Section 3. This SDS supersedes 7999-E.

Refer to ESAB "Welding and Cutting - Risks and Measures", F52-529 "Precautions and Safe Practices for Electric Welding and Cutting" and F2035 "Precautions and Safe Practices for Gas Welding, Cutting and Heating" available from ESAB, and to:

This product has been classified according to the hazard criteria of the CPR and the SDS contains all the information required by the CPR.

ESAB requests the users of this product to study this Safety Data Sheet (SDS) and become aware of product hazards and safety information. To promote safe use of this product a user should:

- notify its employees, agents and contractors of the information on this SDS and any product hazards/safety information.
- furnish this same information to each of its customers for this product.
- request such customers to notify employees and customers for the same product hazards and safety information.

The information herein is given in good faith and based on technical data that ESAB believes to be reliable. Since the conditions of use are outside our control, we assume no liability in connection with any use of this information and no warranty, expressed or implied is given. Contact ESAB for more information.
